DARING ESCAPE OF A NEGRO CONVICT

Wm. Lewis, of Many Aliases, Slides to Freedom On Rope Made of Blankets.

William Lewis, alias William Williams, alias William Epps, a negro convict from Norfolk city, who was serving a term in the State penitentiary for robbing a railroad car, made good his escape from that institution yesterday morning in a most daring and dangerous manner.

It was the duty of the negro to sweep off the floors of the topmost tier of the new building every morning, and he evidently tired of the job. So about 6 o'clock yesterday morning he proceeded to the execution of a plan for his escape, which he had obviously made with great care.

After the cells were opened and the other convicts had gone to work the negro climbed out on the roof, and with the aid of a rope he had made by tying bed ticking and blankets together he slid safely to within twenty feet of the ground. Here the rope broke, but caught in his activity he lit upon his feet, and being unharmed made good his escape.

Flood hounds were put upon Lewis's trail, and every effort is being made to apprehend him.

Mr. Brennan has offered a reward of \$500 for the capture and commitment of the negro to any jail in the State.

Lewis is easy of identification. He is twenty-five years of age and weighs 175 pounds. He is six feet one inch tall, and has a scar on his nose and right hand. His eyes have been cut from his right hand, and he walks with a perceptible limp.

DEMOCRATS WINDING UP.

Finish Distributing Literature and Will Close Headquarters.

The work of the campaign is practically over at Democratic State headquarters. Mr. Brennan and his large corps of clerks having labored until a late hour last night to finish up the task of sending out literature.

Vagon loads of papers, pamphlets and circulars were hauled to the postoffice, and they are addressed to voters in every neck and corner of the State.

The services of most of the girls and young men who have been working for days at headquarters have been dispensed with, and the rooms will be closed to-morrow night.

Mr. Brennan will be busy to-day and to-morrow straightening out matters and removing books and papers which are worth preserving.

But few more speaking appointments will be announced, and the time is so limited that most of the necessary correspondence with leaders out in the State will be conducted by wire.

Senator Martin was absent yesterday, having gone to Alexandria to make a speech. The Senator will go directly home to vote, and will not return here. He expressed himself as thoroughly satisfied with the situation before leaving the city.

There were a number of callers at headquarters yesterday. Among them were Congressman Carter Glass, Senator J. Boyd Sears and Mr. Charles Kizer, of Norfolk.

Names Fifth Thursday.

President Roosevelt has settled the question as to whether Thanksgiving be observed on the fourth or fifth Thursday this year. The President has designated November 30th, which is the fifth and last Thursday. Governor Montague will issue his proclamation in a few days, in conformity with the designation made by the President.

Gas Investigation Still On.

The special committee to investigate the gas question held a lengthy meeting yesterday afternoon, beginning at 4 o'clock. As heretofore, the members sat behind closely barred doors. Not a word

FOOD DOES IT.

Curious How Right Food Rebukes Body.

The benefits of the good, red blood made by Grape-Nuts food is described in a letter from Chicago:

"I was for years badly afflicted with hemorrhoids, caused by constipation, and by food not adapted to the needs of the body under certain conditions. My trouble extended to rectal hemorrhoids, which greatly reduced my strength. A surgical operation gave me no relief, and I was compelled finally to quit business."

"Luckily, just when things were looking black, a blacksmith, who one recommended Grape-Nuts food as a desirable article of diet, and I began (December, 1903) its use, and in a few months brought my health back to me."

"The action of my bowels is free and regular now, and this has brought relief to the hemorrhoids. At the same time a neurotic trouble, which had been growing on me, and which the doctors could never do anything with, has also disappeared. All this return to health I am free to say I owe to Grape-Nuts food."

Name given by Postum Co., Battle Creek, Mich. There's a reason.

LAST REHEARSAL OF BLUES' PLAY

Musical Extravaganza Which Takes Place To-night Will Be Highly Creditable.

AN ARMY OF YOUNG PEOPLE

Hundreds of Girls and Boys Will Crowd Upon the Stage. Catchy Music.

Amid the shouts and applause of the choraphees, newspaper reporters and a few invited guests, the curtain fell last night at the Academy of Music on the final full-dress rehearsal of the big musical extravaganza, "Professor Napoleon," which will be produced by 720 people to-night and to-morrow night, with a baritone matinee to-morrow afternoon. Yesterday's full-dress rehearsal commenced at 2 o'clock, and for eight long hours the choraphees and dances and other pretty novelties never ceased. Mistakes and delays usually incident to final rehearsals, were singularly lacking. No part can be picked out as surpassing in merits the others, unless, judging by the applause, it would be the little old woman from Midway City, the band girls, the college girls and the Japanese maidens.

As early as 2 o'clock the participants began to arrive at the Academy. First came in couples, then by the dozen, and finally by the hundreds. All the regular stage paraphernalia at the theatre has been removed so as to allow the participants every available inch of space back of the stage. Colonel Murphy has kindly given the Blues the use of the large hall in the Annex of Murphy's Hotel, where hundreds of participants will dress and await their turn on the stage. Everything is now in perfect

chape, with the exception of the special orchestra rehearsal, which will be conducted this afternoon. The advance sale has, indeed, been heavy for all performances, although there are still many good seats that are not taken.

NOBODY IS EXEMPT.

A New Preparation Which Everyone Will Need Sooner or Later.

Almost everybody's digestion is disordered more or less, and the commonest thing they do for it is to take some one of the many so-called blood purifiers, which, in many cases, are merely strong cathartics. Such things are not needed. If the organs are in a clogged condition, they need only a little help and they will right themselves. Cathartics irritate the sensitive linings of the stomach and bowels and often do more harm than good.

Lugging is not what is needed. The thing to do is to put the food in condition to be readily digested and assimilated. Stuart's Dyspepsia Tablets do this perfectly. They partly digest what is eaten and give the stomach just the help it needs. They stimulate the secretion and excretion of the digestive fluids and relieve the congested condition of the glands and membranes. They put the whole digestive system in condition to do its work. When that is done you need take no more tablets, unless you eat what does not agree with you. Then take one or two tablets--give them needed help, and you will have no trouble.

It's a common-sense medicine and a common-sense treatment, and it will cure every time. Not only cure the disease but cure the cause. Good about it is a perfectly sensible and scientific way.

We have testimonials enough to fill a book, but we don't publish many of them. However, Mrs. E. M. Fath, of Bryn's Creek, Wis., says:

"I have taken all the Tablets I got of you, and they have done their work well in my case. When that is done you need take no more tablets, unless you eat what does not agree with you. Then take one or two tablets--give them needed help, and you will have no trouble."

BLAMES DOCTORS FOR CHILD'S DEATH

Fulton Mother Says Physicians Should Be Held Responsible.

Rev. John Daugherty, pastor of the Apostolic Church, in Fulton, and the leader of the little band which has inspired faith in the power of prayer--faith that precludes even a suggestion of medical assistance in time of sickness--has ceased to talk of the death of the child of Mrs. Mary Palmer, from diphtheria, and will not refer in any manner to the probable sickness of the four remaining children who were associated with the death of the child. It is the dread disease. He was entirely pleasant in his disclaimers to be interviewed.

But Mrs. Palmer, the mother of the four children, who have doubtless been infected with the diphtheria germ in a manner, has yielded to the entreaties of the neighbors and the physicians, and while professing a disbelief in the efficacy of medicine administered even to innocent children, says that she is willing for the doctor "to put the medicine in the children's backs."

She talks in a contradictory fashion, saying at one moment that the physicians are to blame for the death of her first child and in the next breath claiming that the four children now alive cannot be ill if she has faith in the Anti-toxin will in all likelihood be administered to the children to-day with a hope of preventing them from having the disease.
